WIRELESS CHARGER | APOLLO
GCS-69201

Features

Fast wireless charging, you can get the shortest recharging times for smartphones and devices such as headphones and earphones.

Design

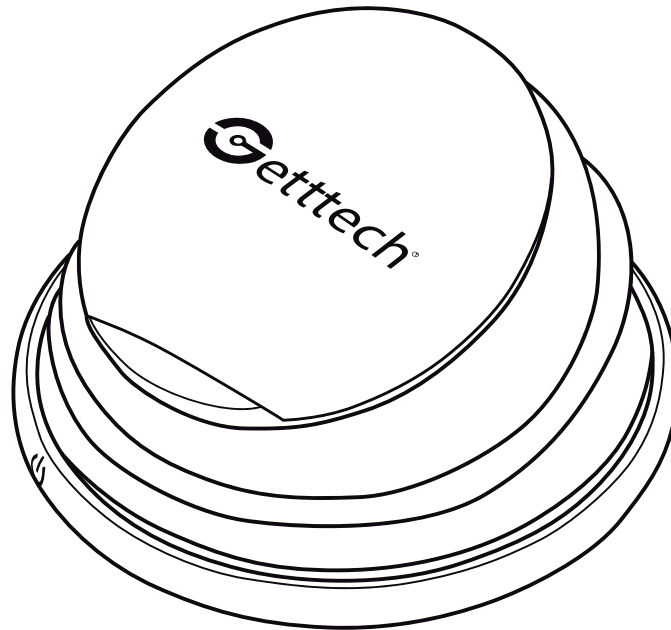

The charger's smooth finish prevents your devices from being scratched or damaged while charging, while its texture provides enough grip to ensure they won't slip or fall.

Experience

Charge your phone more effectively to provide a better charging experience and avoid considering the type of wall charger when using it.
